DCSN MANUFACTURING INC.

Asphalt & Bitumen Plant | Concrete Batching Plant | Wharf Facility

“Supporting Guyana’s Infrastructural Advancement”

Company Profile **BOOKLET**

One of the largest construction company in Guyana.

S. Jagmohan Construction and General Supplies Inc. is a Guyanese-based private Supply and Construction Company. The Company which started as a Sole Trader under the registered name of S.Jagmohan Hardware Supplies and Construction Services is the brainchild of Mr. Suresh Jagmohan. An astute Entrepreneur who hails from the Pomeroun-Supenaam region.

S. Jagmohan Construction and General Supplies Inc. (SJC&GS) has been in operation for over Twenty-two years (22) years with a reputation for successfully executing a number of infrastructural projects both in the public and private sector. The Company has grown steadily since its establishment in 2000 and has become one of Guyana's largest construction company with an expansive portfolio.

A little bit about us

and about our passion for what we do

Who we are

Some details about our history

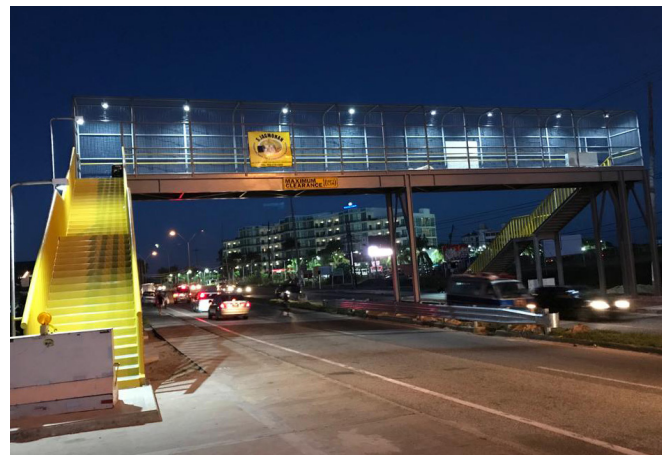

Our impeccable track record in project execution and delivery.

The Company is strengthening its capacity to continue the delivery of quality products and services even as it diversifies and expands its operations. ISO 9001 Certification is a medium term goal of the Company as we seek to improve our systems. The Company will further enhance its marine construction skillset and will soon commence construction of a modern wharfing and Dry Dock facility at Madewini, Soeskydke. With the rapid advancement in Guyana's infrastructural sector, the company has seen the need to diversify and expand its operations to service this demand.

What we can do

Quality and Satisfaction

We offer a range of services to meet your needs.

SJC&GS continues to expand and diversify its investments and operations. While our primary focus is on infrastructure projects, S.Jagmohan Construction is also one of the primary contractors of the construction of portable water wells, hardware supplies amongst others.

Everything we do is delivering customer value

What we can do

- Supply of DI, HDPE and PVC Pipe and Fittings
- Supply of Geosynthetics, Gabion Basket and Mattress
- Manufacture and Supply of High Quality Asphalt Concrete & Bitumenious material
- Supply of Heavy Equipment
- Drilling of Potable Water Well and Construction of Water Treatment Facilities
- Wastewaster Engineering- Drainage and Irrigation
- Machine and Equipment Rental and Sales
- Road Construction
- Solid Waste Management

We act strategic

It's the only way to succeed!

SJHSCS has maintained a reputation for our quality, safety and timely delivery, responsiveness and efficient labour management which is one of the critical factors contributing to success of our Company.

We at SJC&GS strive to achieve sustained and profitable growth by providing services which consistently satisfy the needs and expectations of our clients. This can only be, through the adoption of a system of procedures that reflects the competency of the company to both existing and potential clients.

We also have a highly professional project management team which will further strengthen our position in the market and moreover the realization of our vision and objectives. We believe that our professional management structure is extremely crucial to the effectiveness and efficiency of our business model and the services that we provide.

Mission

Supporting Guyana's Infrastructural advancement through quality and efficient project delivery.

Vision

Maintaining environmentally friendly construction procedures while producing high-quality products through modernized operations, technology, and marketing strategies.

Creating a high-class construction company with strong financial return through the seizing opportunities for expansion and diversification.

Objectives

SJC&GS is committed to ensuring environmental protection and management at the implementing stage of all project sites and the wider project areas. The company also intends to comply with all regulatory requirements, including all building codes and standards, EPA regulations, among others.

SJC&GS is aiming to expand its presence all over Guyana by capitalizing on our competitive strengths, experience, and become familiar with local working conditions and to expand the relationship with customers and clients.

Our main capabilities

S.Jagmohan
Construction and
General Supplies Inc
and its subsidiary
are committed to
excellence.

We aim to consistently
deliver high-quality
projects, products,
and services to
our customers'
satisfaction.

Capacity

We boast a highly experienced technical staff and skilled workforce whom have worked on multiple projects at various areas of operations.

Networking

We have extensive working experience in many parts of Guyana with various local and international clients and consultants with full understanding of their technical requirements and specifications.

Efficiency

We execute challenging projects and critical shutdown jobs within stipulated delivery schedule.

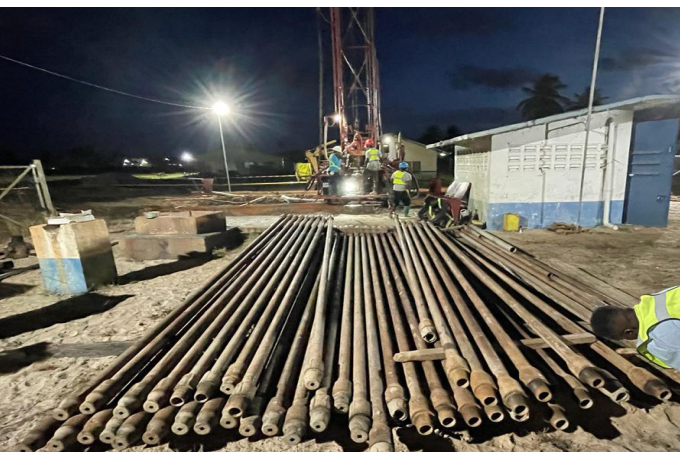

Safety & Quality

We maintain the highest standards in Quality & Safety consciousness while on work.

Drilling of Potable Water Well and Construction of Water Treatment Facilities

**Road, Marine, Steel Structure, Pump Stations
and Landfill Construction**

More about our services

Pipe Laying and Sewerage Works

We specialize in the installation of water supply piping systems – PVC and Steel and Ductile Iron materials. We also have extensive experience with a variety of sewer related works – repairs to pressured mains, repair to yard sewers, repairs to sewer trench crossings and sewer pumping stations (lift stations). Further, we are one of the only Companies in Guyana with Technical Personnel who have been trained in Sewerage Engineering Works – sewer pipe installation, construction of pumping stations.

Drainage & Irrigation

Over the years we have completed a number of drainage and irrigation projects for both Government agencies and private sector. Our work in this area includes revetment works, canal de-silting, culvert constructions etc.

Hardware Supplies

In addition to all the construction and engineering services, SJC&GS has become one of the largest suppliers of water and sewer related materials. Our range of materials includes PVC pipes and fittings, Ductile Iron pipes and fittings, couplings, adaptors and other specialized fittings.

In addition to pipes and fittings, we also supply Gabions, Geosynthetics, equipment and machinery for various applications, mini - excavators, heavy - duty compactors, rollers, wheel and track loaders, trucks, generators, welding equipment etc.

Landfill Management and Operation

S.Jagmohan Construction and General Supplies services have taken Guyana into the future in terms of landfill management and construction. We have constructed the first leachate management system in Guyana, moreover the Caribbean.

Steel Superstructures

S.Jagmohan Construction and General Supplies has successfully completed a number of steel superstructures including the recent pedestrian overhead crossings at Diamond and Providence.

Road Construction

S.Jagmohan Construction and General Supplies has become one of the leading contractors in Construction of Roads in Guyana. The company has two asphalt plants and is also one of the largest importers of bitumenous materials in the country.

DCSN Manufacturing Inc.

A Subsidiary of S.Jagmohan Construction
and General Supplies

DCSN MANUFACTURING INC.
Asphalt & Bitumen Plant | Concrete Batching Plant | Wharf Facility

**DCSN
MANUFACTURING INC.**

DCSN aims to become an industry leader and provide Guyana with quality asphalt material and concrete products at cost effective rates, while complying with the highest environmental standards.

DCSN Manufacturing Incorporated is a subsidiary of S.Jagmohan Construction and General Supplies Inc and was formally incorporated in November, 2020. It represents the efforts of one of Guyana's largest construction Company with almost 22 years track record for quality efforts at diversification and expansion. Encouraged by the prospect of Guyana's promising

economic outlook, in particular the growing investment in public infrastructure sector, DCSN has taken steps to revolutionize and enhance its operation. With the increasing demand for asphalt, the company has a GAJJAR Mobile Asphalt in Hyde Park Atkinson Field Madewini.

Our Products

Guaranteed Quality

Testing of materials to ensure that the desired quality is achieved is done by independent laboratories. These include the University of Guyana, Ministry of Public Works etc. All the results thus far show a common indicator, consistent quality.

1. Quality Asphalt & Bitumen

- Asphalt Concrete
- Bitumen CRS-2 & RC-250

2. Durable Concrete Products

- 1 Prestressed Concrete Piles & Slabs- Prestressed Utility Poles
- Ready-mix Concrete
- Hollow blocks/Pavers

Concrete Plant

DCSN Manufacturing Inc.

Our prestressed and precast concrete facility is designed to produce pretension and post-tension concrete elements.

Equipment used in our plant are all state of the art, new and automated.

They include our new 90-ton capacity SANY Crane. It is among the largest in Guyana, its technology, safety features, versatility and reliability is compared only to the best.

Our products are AASHTO Compliant

All prestressed concrete elements are manufactured according to the American Association of State Highway and Transportation Officials (AASHTO) Load and Resistance Factor Design (LRFD) methodology

All our piles and slabs manufactured thus far have achieved an average of 8100 PSI after 7 days testing. This is possible through the use of high-quality raw materials, mix designs created by experts and cutting-edge technology.

This Prestressed and precast concrete facility is designed to produce pre-tensioned and post-tensioned concrete elements such as:

- Piles for deep foundation,
- Slabs for bridge decks
- Sheet Piles for retaining wall structures, precast culverts of rectangular and circular cross-sections
- Utility Poles
- AASHTO type VI Girders.

Our piles are of square cross-sections ranging from 14" to 16". Lengths are available up to 180 ft in a single unit and our capacity is at least 720 ft of piles every 48 hours.

Sheet piles are 8" thick x 30" wide and available up to 80 ft long in a single unit. Our capacity is at least 80 ft every 24 hours. The deck slabs are 16" thick by 54" wide and up to 80 ft in a single unit. Our minimum capacity is eighty feet every 24 hours.

Qualifications and Experience of Key Personnel

The qualifications and experience of key personnel employed by S. Jagmohan Construction and General Supplies are listed in the table below.

Name: Suresh Jagmohan

Position: Managing Director

Qualifications:

Project Management for Development – University of Delft – Neatherlands

Project Management for Engineering Projects – International Development Bank

Experience: 20 Years

Name: Sajid Bakhsh

Position: Procurement Engineer

Qualifications:

MSc Procurement, Logistics and Supply Chain Management – University of Salford-UK

Diploma Civil Engineering – University of Guyana

Contract Law Certificate – Harvard University

Diploma Health, Safety and Environment

Project Management for Development – University of Delft – Netherlands

Project Management for Engineering Projects International Development Bank

10 Subjects CXC

Microsoft Projects Certificate – Microsoft USA

Experience: 8 Years

Name: Avinash Dyal

Position: Foreman

Qualifications:

Diploma - Civil Engineering

Certificate - CXC General Proficiency,1990

Experience: 26 Years

Name: Lionel Wordsworth

Position: Project Manager

Qualifications:

BSc Civil Engineering – University of Guyana

Water Resource Management 2016

Maheshwer Ragoobeer

Position: Project Engineer

Qualifications:

Attended IDB Training Seminars on Project Management and Project Procurement:

M.Sc Business Administration

BSc. Degree in Civil Engineering – University of Guyana

Diploma in Civil Engineering - University of Guyana

Government Technical Institute

Technical Diploma in Building and Civil Engineering

Experience: 19 Years

Name: Aneel Chowbay

Position: Mechanical Engineer

Qualifications:

BSc Mechanical Engineer – University of Guyana

Dip Mechanical Engineering – University of Guyana

Experience: 15 Years

Name: Devin Seepaul

Position: Civil Engineer

Qualifications:

BSc Civil Engineering – University of Guyana

Dip Civil Engineering – University of Guyana

Experience: 3 Years

Name: Gary Gabbriel Westford

Position: Surveyor

Qualifications:

Sworn Land Surveyor's Certificate

Diploma in Land Surveying

Experience: 31 Years

Name: Deonauth Lalta

Position: Chief Accountant

Qualifications:

CPA – Project Management
